National Weather Service  
Storm Prediction Center

<http://www.spc.noaa.gov>

# Hazardous Weather

Elevated Fire Weather Conditions are expected from late this morning through this afternoon for southern portions of the area. The unseasonably warm temperatures, and dry and windy conditions will be favorable for the development of wind-driven grass fires. Use Caution!

Today will be warm for much of North and Central TX with afternoon high temperatures in the 80s. Some locations may experience record breaking warmth as southwest winds become westerly with speeds of 10 to 15 MPH. Low relative humidity coupled with the above normal warmth will result in a risk for grass/wildfires. Individuals are urged to avoid anything that could start a fire! In addition, please report any fires to local law enforcement or fire departments!

# Hazardous Weather

## FIRE DANGER

An enhanced FIRE DANGER exists today through 6 pm for:

- **Northeast Texas**
- **McCurtain County, Oklahoma**

*Outdoor barbecues and campfires will raise the potential for burning dead vegetation which could quickly get out of control.*

*Extreme care is urged during all outdoor activities where there is a potential for grass fires and for fires to start and spread.*

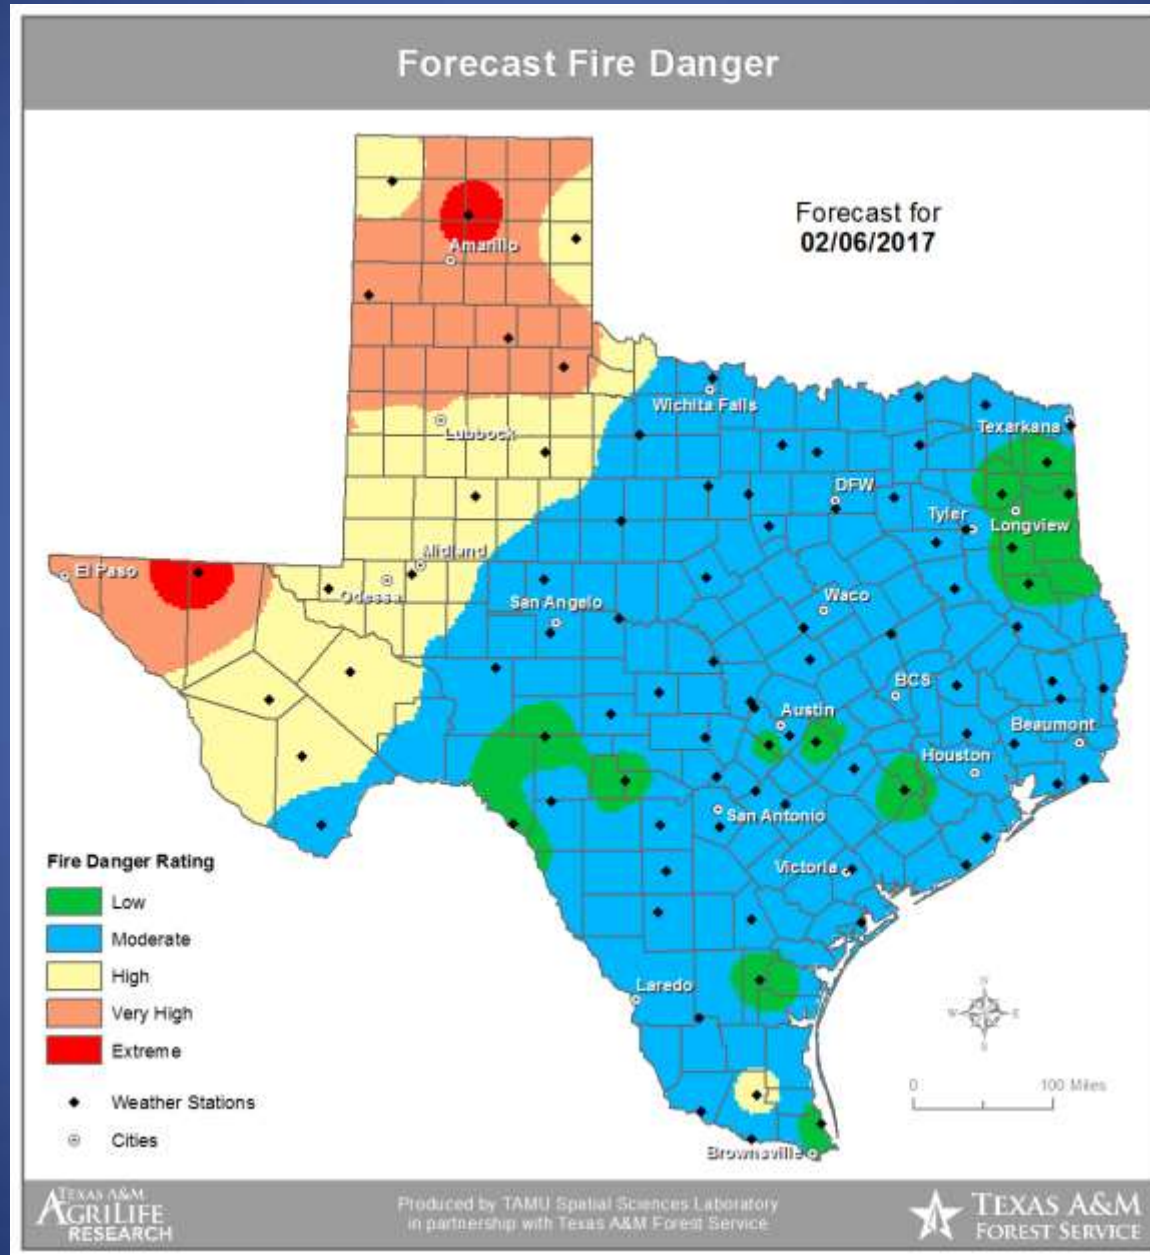

# Weather Warning/Advisories Issued

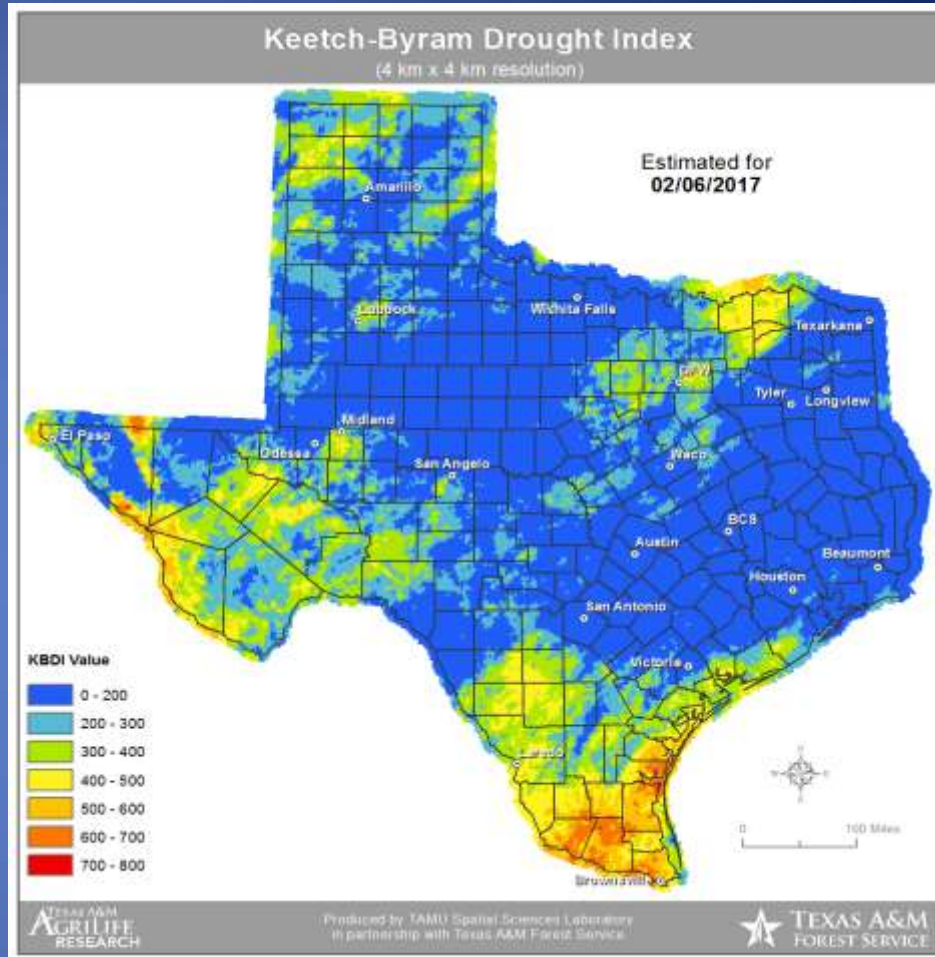

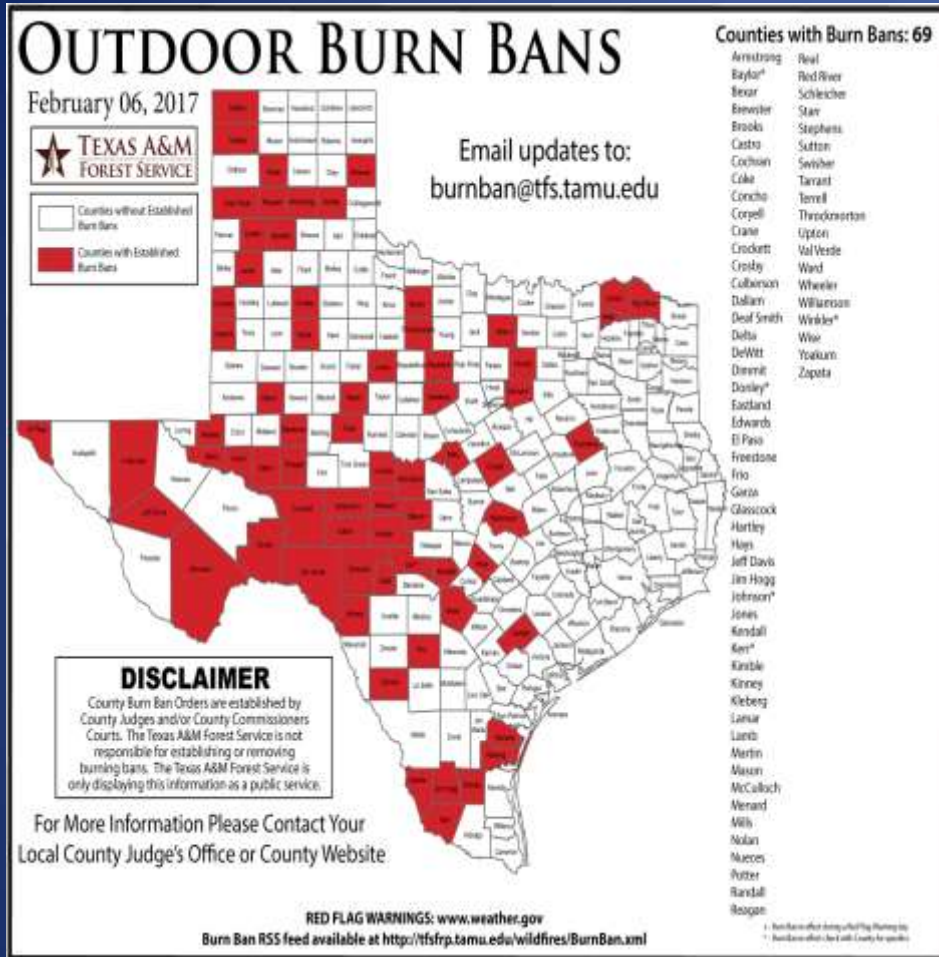

DATE	WARNING TYPE	LOCATION
02/06/17	High Wind Warning	Ector, Midland and Winkler Counties
02/07/17	Dense Fog Advisory	Bandera, Dimmit, Edwards, Frio, Kinney, Kerr, Maverick, Medina, Real, Uvalde, Val Verde and Zavala Counties
